Installing Ergo Kukke Presets

1. **Install Vital: https://vital.audio/**

2. **Open your Vital folder.**
   Press **Windows + R**, paste the following path, and press **Enter**:

   ```
   %USERPROFILE%\Documents\Vital
   ```

3. **Copy the Ergo Kukke library folders into this folder.**
   Keep each library's folder structure intact or make sure EK library presets are located withing the main folders folder„Presets" – some early released EK libraries didn't have that for manual installation. Example, the preset files wouldneed ot be inside:
   `%USERPROFILE%\Documents\Vital\EK – Burn The Acid\Presets`

Finding the folder through Vital

You can also locate the folder from inside Vital:

1. Click the **three-line menu** and select **Browse Presets**.
2. Right-click an existing preset and choose the option to open its location.
3. Navigate up to the main **Vital** folder, then copy the **Ergo Kukke library folders** into it.
