

U-HE REPRO 1

COMPUTER WELT

INTRODUCTION

Thank you very much for purchasing « **Computer Welt** », the very first soundset from **SubsonicArtz** for the powerful U-HE REPRO-1 Vsti.

It's quite simple to guess that **Computer Welt** was built with a clear purpose in mind : To get as close as possible to the Kraftwerk's sound DNA.

As a big fan of the famous band of Düsseldorf (and also of some other Krautrock's bands like Tangerine Dream...) , i found this idea of building a dedicated bank really really exciting.

To bring this **unique** project to life (to our knowledge, no other bank of this kind as been done for a **Vsti**, except the Synth-Werk from Best Service but this one is a sample library) , I decided to use the Repro-1 Vsti cause i was really astounded by its sounds and its features (specially the integrated sequencer). After some first tests and a few patches, the project was definitely adopted.

FEATURES

Computer Welt has 126 presets (in .h2p and .nksf format):

- 12 **AR** (Arpeggiators)
- 3 **BS** (Bass)
- 22 **FX** (Effects)
- 16 **LD** (Leads),
- 7 **PD** (Pads)
- 24 **RY** (Rhythms)
- 42 **SQ** (Sequences)

All presets are tagged and the modwheel (or the aftertouch) have an action on 123 patches for changes on the sounds.

You can use the repro-1 Beta version or the Vsti or the 1.0 (rev,5332).

For the nksf, you'll need the Native Instruments Komplete Kontrol.

INSTALLATION

Computer Welt comes in 2 formats: .h2p files and nksf files.

1/For the .h2p files: Repro-1 requires all presets to be in the following locations:

For Windows: Local drive\user\Repro-1.data\Presets\Repro-1

For Mac OS X: Local MacHD/Library/Audio/Presets/user/Repro-1/ or User ~/Library/Audio/Presets/user/Repro-1/

2/ For the .nksf files : Copy the folder « Subsonicartz – Computer Welt nksf » into the following location:

Windows: (YOUR PLUG-IN PATH) \user\Repro-1.data\NKS\Repro-1\

Mac OS X: ~/Library/Application Support/user/Repro-1/NKS/Repro-1

Select Repro-1 in your Komplete Kontrol host, right-click on the search result list and select 'Find in Explorer/Finder' to open the NKS presets folder.

THANKS:

I'd like to thank all of my dear friends who gave me support, helped me to perfect this product, did some beta testing and/or did great demos to let you have an idea of the product before purchasing it.

Thank you to: Peter Connelly, Jonathan Sharp, Brian Brylow, Antal Nusselder, and Michael Lyon.
